

Thanks to the support of ODJFS and all of our project partners, the Ohio Intimate Partner Violence (IPV) Collaborative is excited to offer county children services agencies the following Safe and Together trainings. The national Safe and Together Model is a perpetrator pattern based, child-centered, survivor strengths approach to working with domestic violence. This is a great opportunity for counties interested in providing trainings with the most up-to-date curricula and taking agency IPV expertise to the next level.

## Training Opportunities

**Core Days 1-4:** The core training introduces the concepts of developing a domestic violence informed child welfare system. Designed for agency administrators, supervisors, caseworkers, and select community partners.

**Supervisor Days 1-2:** This 2-day training for administrators and supervisors focuses on supervisory skills such as “pivoting,” coaching, and assessment of workers’ strengths and needs in domestic violence case practice.

**Advanced Day on Survivors & their Children:** Building on the core training, this day focuses on interviewing, case planning, survivors’ parenting, and providing healing experiences for children.

**Advanced Day on Perpetrators & their Children:** By focusing on perpetrators as parents, training participants will address perpetrators’ parenting expectations, the needs of their children for healing, and interventions with perpetrators.

**Technical Assistance Days:** Technical assistance days are designed to provide counties with feedback on case practice, cases, policies, and/or protocols. Trainers and county administrators will discuss creating meaningful and uniquely tailored technical assistance days for each county.

**Enhanced Advocacy Day:** This day introduces domestic violence advocates to the Safe and Together model and discusses ways advocates and PCSAs can work together in referrals and service delivery.

**Community Partner Day:** PCSAs work with courts, law enforcement, service providers, advocates, and others on domestic violence cases. This day is designed for these partners to learn about the Safe and Together Model and discuss with PCSAs how they can collaborate across systems to develop a more perpetrator pattern-based and child-centered approach.

## Training Preferences

Where would you prefer to have the training?

Which training days would you like to receive? Check all that apply.

Core Days 1-4

Supervisor Days 1-2

Advanced Day on Survivors & their Children

Advanced Day on Perpetrators & Parenting

Technical Assistance Days/Coaching

Enhanced Advocacy Day

Community Partner Day

Other

If you selected Technical Assistance Days, how many would you like to have?

How many staff would you like to send to training? Note that all training days, except for Community Partner Day, are capped at 30 participants.

When would you like these trainings to occur?

Do you have any special requests not mentioned above?

Each year, the IPV Collaborative offers supplemental webinars provided by David Mandel & Associates. Are you interested in participating? What topic(s) would you like to see?

---

Have there been any recent policy or practice changes in your agency or community related to domestic violence?

How would you like to use these trainings to build internal capacity or community collaborations in domestic violence cases?
